

# COVID-19 UPDATE

Without a doubt, this is a very challenging time for our festival and our community. Our staff and volunteers are working hard to provide for a safe and healthy environment so that you can experience Kitchener-Waterloo Oktoberfest in a unique way this year. Our staff has worked remotely, volunteer meetings have been held virtually and we will be following all guidance and protocols from our Regional Health authorities. Of course, our Festival will be different then our previous 51 years and we look forward to providing some K-W Oktoberfest Gemütlichkeit to all our Festival friends during this time of uneasiness and social distancing. We have been working along side Public Health to make sure that all 2020 Festival plans are safe.

Stay safe, and don't forget to wash your Hans!

Prost!

Tim Beckett, President
