## POP-CORN-ON-THE-COB BAG

Sponsored by:

# Pop-Corn-on-the-Cob Bag

## Materials:

- Snack size ziplock baggies
- Tape
- Double-sides tape
- Popcorn
- Green tissue paper (it's great if you get 2 different shades of green to mix together)
- Twine/ribbon to tie up the bottom
- Scissors

## Directions

- Fill a small sized snack bag with freshly popped popcorn. Tape one side of the 'ziplock' part to the back, hide it using regular tape.
- Place a piece of double-sided tape near the corner of your green tissue paper. Put the baggie of popcorn over the double-sided tape.
- Wrap both sides of the popcorn baggie. The double-sided tape keeps the bag in place. Next, twist the bottom of the tissue paper:
- Tie the bottom with some twine or ribbon. Cut the excess tissue paper off of the bottom:
- Stack the corn together and they really come to life! They look just like some real corn on the cob.
